### A LITTLE ABOUT ME

My husband and I have four great kids. We love watching them play many different sports. I worked at BHSSC as a DSP in both the group homes and day program. I have also been at the Douglas School District for many years in their Special Education Department. I love getting the chance to meet everyone from all ages and help people advocate for themselves! I have lived in the Black Hills all my life and really enjoy getting to see all our community has to offer!
